

## Seminar and Workshop

PMI-KSA and Advisors would like to invite career women in the Kingdom to attend a workshop and seminar made, designed and, offered by women from the trenches. This 3-day workshop is meant to be an in-depth look into oneself and a journey into the art of influence.

In addition, participants will be invited to attend a seminar offered by Engineer Nabilah Al-Tunisi, PMI-Chief Engineer /General Manager of Norther Operations- Project Management at Aramco. Ms. Al-Tunisi was recognized by Forbes Middle East as the #4 most powerful Arab woman in Executive Management.

**Eng. Nabilah Al-Tunisi**  
President of PMI-KSA  
and Chief Engineer, Aramco

Ms. Al-Tunisi is, according to Forbes Middle-East (2017), one of the most powerful Arab woman in executive management. She's an absolute achiever and a resounding brand for Saudi women in leadership positions.

**Dr. Radhia Benalia**  
PMP, PMI-RMP, Managing  
Partner, Advisors

Dr. Radhia Benalia has masked several first-time landmarks in the region as well as at an international level; an educator and an innovator, she has worked, taught, trained, and spoken in 4 continents.

### Dammam

29-31 July, 2018

### Riyadh

12-14 August, 2018

### Jeddah

16-18 September, 2018

### Seminar Brief:

Throughout this memorable seminar, Eng. Nabilah Al-Tunisi will paint for the audience a very vivid image of what success rooted in resilience and integrity of character looks like. She will share advice and recommendations drawn from lessons learnt built over a unique career. Don't miss out!

### Course Brief:

Female professionals nowadays still struggle with trying to strike a "balance" between their careers and their homes while pursuing to establish a model of leadership and influence at home and in the workplace. This workshop will focus on integration (rather than balance) according to one's priorities. Participants will have the chance to highlight their points of strength, learn how to leverage them and turn weaknesses into opportunities to grow. The 3 days will be filled with activities, reflections, crisis scenarios, and decision gateways.
